Manufacturing

Balance cost, quality, flexibility, customization, and product delivery time with improved planning, processes, and facility design.

MEET OUR CLIENTS

M O N A T

COVID-19 led to mass layoffs and an economic downturn that left many people looking for extra ways to earn some cash. Monat's brand philosophy, reputation, and natural products combined with its desire to support job creation and security for women, made the company the top choice for many new entrepreneurs. They are just one of two multi-level marketing companies to experience over 100% growth over the past 18 months. But their growth would not have been possible without a strategic investment in their supply chain operations and support from Alpine which positioned Monat to onboard a record number of new market partners.

The logo for MJ Holding, featuring the text "MJ Holding" in a bold, blue, sans-serif font. The letters "M" and "J" are connected. A yellow graphic element, resembling a stylized arrow or a rising line, is positioned above the text, starting from the left and pointing towards the right. The logo is set against a white background within a rounded rectangular frame.

MJ Holding

In 2019, MJ Holding Company, LLC the largest North American distributor of trading cards, set out to build a new warehouse to accommodate customer growth. At the time, they distributed to over 7,000 retail locations including Walmart and Target stores nationwide, and eCommerce capabilities weren't on their radar. But, as they worked with Alpine to define their new warehouse needs, they decided to include the ability to ship directly to consumers. It turned out to be the move that saved their business as customers began clamoring for trading cards in 2020, but couldn't leave home to purchase them.

TESTIMONIALS

“The combination of CSI’s equipment and installation experience and Alpine’s data-centric approach provided Bazaar with a real-world solution to address our need to be flexible. The team was collaborative from the beginning and did not try to sell us anything until they determined exactly what we needed. In the end, a very simple solution was developed to handle a very complex problem.”

Ryan O’Connor

SVP of Operations
The Bazaar, Inc.

“Alpine worked side by side with us to help us make incredible gains in productivity. Before Alpine, our daily out was 170 units/hour. Alpine helped us increase that to 260.”

Marco Pelaez

VP of Operations
AMS Fulfillment
